An Industry Leader, Trusted Around the Globe

Shaping the Future with the Strength of Our Experience

GROUP COMPANIES

We are an international trading and project supply company headquartered in Dubai, established to deliver premium architectural and construction solutions to global markets.

ABOUT US

Supported by an extensive manufacturing network in Türkiye, we offer integrated solutions covering PVC and aluminum systems, façade engineering, steel and metal structures, and automation systems.

Our mission extends beyond supplying products. We work closely with contractors, developers, distributors, architects, and project owners to provide technical expertise, engineering support, logistics coordination, and complete export management.

By combining manufacturing excellence with international trade experience, we simplify complex procurement processes and create long-term value for our business partners.

OUR HISTORY

Our story began more than 20 years ago in Türkiye, with a commitment to manufacturing excellence, quality, and reliable solutions for the construction industry.

Building on more than two decades of manufacturing expertise, we continue to expand our international presence by combining high-quality products, professional service, and strong technical capabilities with a customer-focused approach.

Our goal is to build long-term partnerships based on trust, reliability, and sustainable growth, delivering solutions that create lasting value for our customers worldwide.

AREAS OF ACTIVITY

We operate across multiple sectors including

- PVC Door and Window Systems
- Aluminium Door and Window Systems
- Aluminium Profiles
- Aluminium Composite Panels (ACP)
- Aluminium Accessories
- Facade Systems
- Sandwich Panels & Steel Facade Systems
- Ceramic & Sinterflex Facade Cladding
- Steel Structures
- Curtain Wall Systems
- Sun Breaker Systems
- Folding Glass Systems
- Sliding Glass Systems
- Pergola Systems
- Metal Accessories

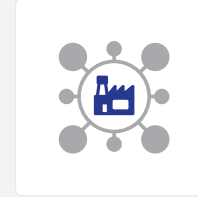

Global Trading Expertise

Strategically headquartered in Dubai, we connect international markets with world-class manufacturing through efficient global trade and export operations.

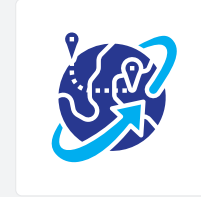

Integrated Manufacturing Network

Four specialized manufacturing companies working together under one industrial ecosystem, delivering comprehensive building solutions from a single source.

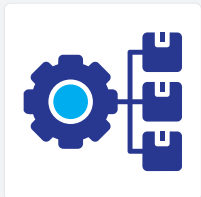

Flexible Manufacturing

From standard product lines to fully customized, project-specific solutions, we adapt to every client's unique requirements.

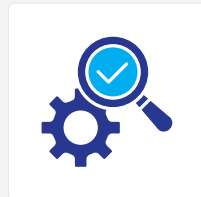

Reliable Global Delivery

Efficient logistics, export management, and supply chain coordination ensure timely deliveries to customers around the world.

Extensive Product Portfolio

More than 20 product categories serving residential, commercial, hospitality, industrial, and infrastructure projects worldwide.

Engineering Excellence

Comprehensive engineering, technical consulting, and project support from concept and design through production and delivery.

Long-Term Partnerships

We build lasting relationships through quality, reliability, transparency, and dedicated customer support focused on sustainable business growth.

Aluminium Door and Window Systems

Our aluminium door and window systems combine elegant design with outstanding structural performance. Designed for residential, commercial, and high-rise developments, they offer durability, weather resistance, energy efficiency, and minimal maintenance requirements.

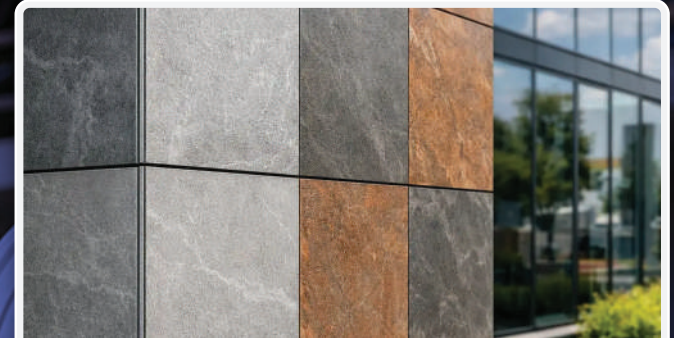

Aluminum Profiles

We manufacture and supply precision-engineered aluminum profiles for architectural and industrial applications. Available in a wide range of dimensions and finishes, our profiles meet the highest standards of quality, strength, and corrosion resistance.

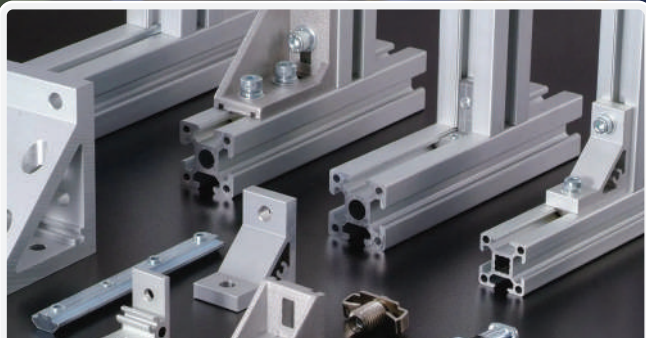

Sandwich Panels / Steel Facade Systems

Our insulated sandwich panels and steel façade systems are engineered to provide excellent thermal insulation, structural strength, and fast installation. They are widely used in industrial facilities, warehouses, commercial buildings, and prefabricated construction projects.

Ceramic & Sinterflex Facade Cladding

We provide premium ceramic and Sinterflex façade cladding solutions that combine contemporary design with exceptional durability. These lightweight, weather-resistant materials offer outstanding aesthetic appeal while ensuring long-term performance.

Aluminum Accessories

We supply a comprehensive range of premium aluminium accessories, including brackets, connectors, fixing systems, and installation components, ensuring the durability, reliability, and seamless installation of aluminium systems.

PVC Door and Window Systems

We supply complete PVC door and window solutions designed to deliver superior thermal insulation, soundproofing, durability, and modern aesthetics.

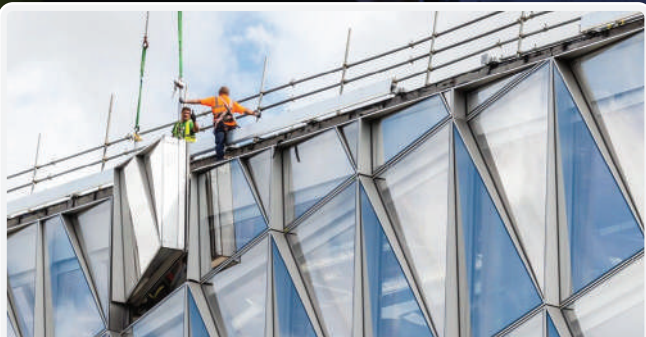

Curtain Wall Systems, Sun Breakers & Folding Systems

We offer innovative architectural systems that maximize natural daylight, improve ventilation, and increase energy efficiency.

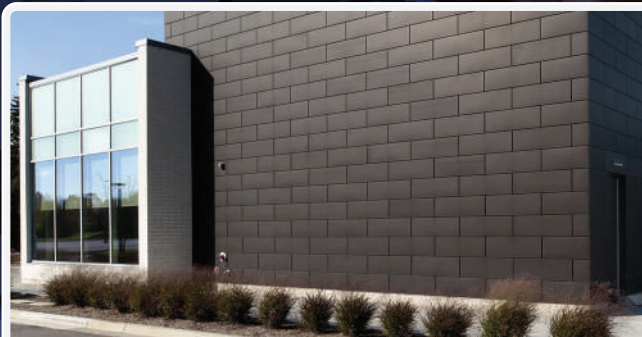

Sliding Systems

Smooth, space-saving sliding door and window solutions with modern design and reliable performance.

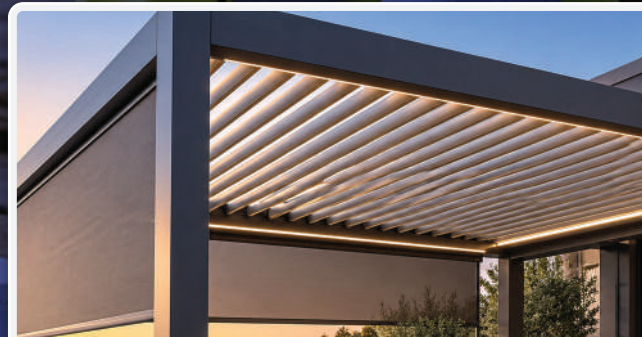

Facade Systems

We deliver complete architectural façade solutions, including curtain walls, structural glazing, and customized exterior systems. Our façades enhance building aesthetics while improving energy efficiency, weather protection, and long-term building performance.

Aluminium Composite Panels (ACP)

Our Aluminium Composite Panels (ACP) offer a lightweight yet highly durable solution for modern building façades and interior cladding. Available in a wide selection of colors and finishes, they provide excellent weather resistance, fire performance, and architectural flexibility.

Pergola Systems

We provide stylish and functional aluminum pergola systems for outdoor living and commercial spaces.

Metal Accessories

We provide a complete range of high-quality metal accessories and hardware for construction and architectural applications.

BIGWAY is a leading Turkish manufacturer specializing in custom aluminum profile extrusion, delivering high-quality solutions for the construction, automotive, energy, furniture, and industrial sectors.

Operating from a modern 10,000 m² manufacturing facility located in the Organized Industrial Zone of Antalya, we utilize advanced production technologies to manufacture precision-engineered aluminum profiles tailored to the unique requirements of every project.

With a customer-focused approach, BIGWAY provides flexible, reliable, and efficient manufacturing solutions, ensuring consistent quality, competitive pricing, and on-time delivery. Our ability to develop customized profiles allows us to meet the diverse demands of both local and international markets.

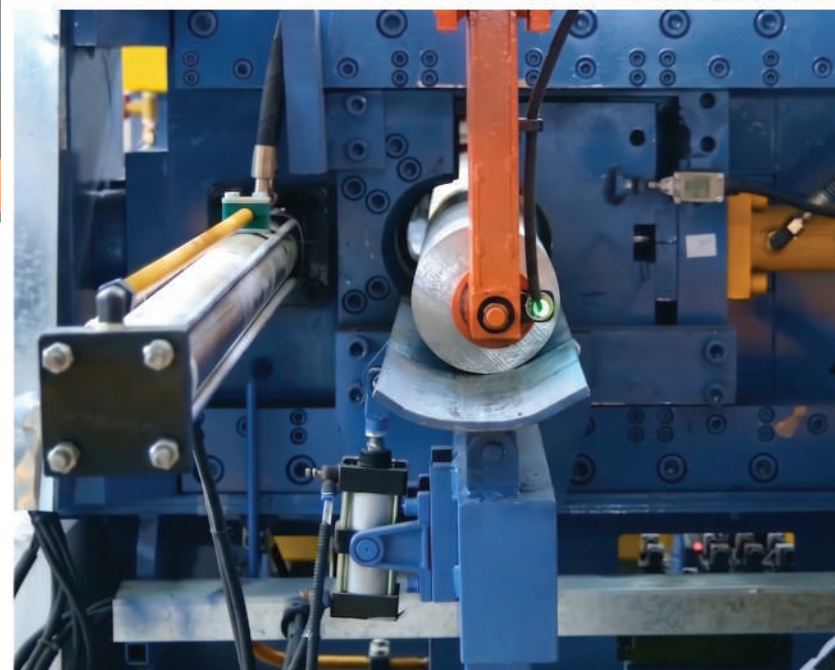

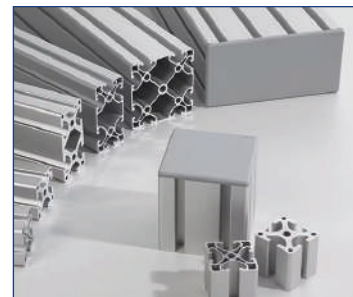

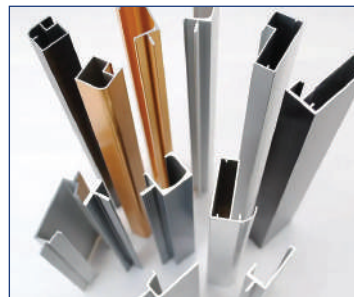

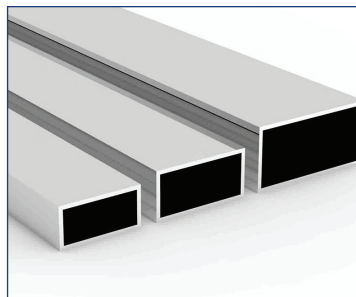

✓ Standard Profiles

✓ Building Profiles

✓ Furniture Profiles

✓ Industrial Profiles

Building stronger projects with quality, innovation, and trust.

Founded over 20 years ago, VINDOSA is the cornerstone of our manufacturing group and the company from which our journey began. Today, it is a leading Turkish manufacturer of high-quality PVC and aluminum systems, delivering innovative and customized solutions for residential, commercial, hospitality, and industrial projects worldwide.

Driven by innovation and continuous improvement, we invest in cutting-edge technology, our people, and sustainable manufacturing practices to ensure every product meets the highest international standards. Our commitment to quality, competitive pricing, and dependable service has made VINDOSA a trusted partner for customers in local and global markets.

Today, through our Dubai branch, we extend this legacy by bringing VINDOSA's Turkish-manufactured products and solutions to customers across the Middle East, Africa, Europe, and beyond.

- ✓ PVC Door and Window Systems
- ✓ Aluminium Door and Window Systems
- ✓ Aluminum Profile Systems
- ✓ Curtain Wall & Facade Systems
- ✓ Ceramic & Sinterflex Cladding
- ✓ Composite Cladding Systems
- ✓ Roller Shutters
- ✓ Smart Automation Systems

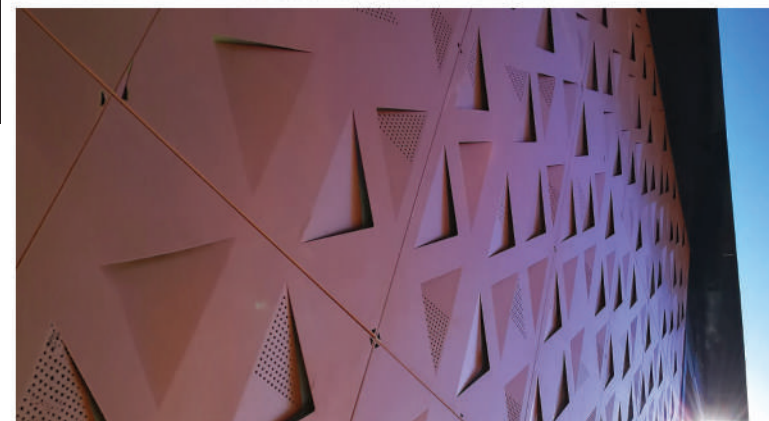

VEMSA Aluminum is a trusted provider.

VEMSA Aluminum is a trusted provider of innovative aluminum and PVC architectural systems, delivering advanced solutions for modern construction projects. By combining engineering expertise with cutting-edge technology, we develop high-performance products that meet the evolving needs of architects, contractors, and end users.

Equipped with state-of-the-art machinery and supported by an experienced technical team, we specialize in the design and production of: (Our Products)

- ✓ Architectural Aluminum Systems
- ✓ Sliding Systems
- ✓ Doors & Windows
- ✓ Curtain Wall & Facade Cladding Systems
- ✓ Aluminum & PVC Solutions

SACCIO Metal is one of the industry's leading brands, bringing warmth to metal's cool surface through engineering intelligence and a passion for design. Our corporate structure is built on the principles of transparency, sustainability, and a commitment to excellence.

For us, success is not measured solely by the number of completed projects, but by the trust we build and the customer satisfaction we deliver. Empowered by our strong heritage, we integrate the technologies of the future into today's buildings.

Technology and Precision: Our Manufacturing Strength

Quality is never a coincidence; it is the result of advanced technology and disciplined work. SACCIO Metal production facilities are equipped with a machinery park that complies with Industry 4.0 standards.

Our engineering office works based on BIM (Building Information Modeling), digitally simulating all details before production and managing an error-free manufacturing process.

- ✓ CNC Laser Cutting: We process complex patterns with millimetric precision.
- ✓ Press Brake Bending: We shape metal into flawless forms to produce three-dimensional panels.
- ✓ Robotic Welding: We deliver standardized, high-strength joints independent of human error.
- ✓ Surface Treatment Line: We armor metal against corrosion with electrostatic powder coating and anodizing.
- ✓ Metal Facade Systems
- ✓ Sunshade Systems
- ✓ Movable Facade Systems
- ✓ 3D Facade Systems
- ✓ Outdoor Cladding Systems
- ✓ Industrial Systems
- ✓ Metal Accessories

“Building stronger projects with quality, innovation, and trust.

Luxes Invest is a specialized real estate investment and consulting company connecting international investors with high-value opportunities across Europe and global markets. We provide strategic guidance throughout every stage of the investment journey, combining market expertise, construction consultancy, and tailored investment solutions to help clients make informed and profitable decisions.

Beyond real estate advisory, Luxes Invest serves as the international marketing and business development partner for our Turkish Group of Companies, representing Vindosa, BigWay, Saccio, Vimsa, and Global Future across European markets. We create new business opportunities, establish strategic partnerships, and connect our manufacturing companies with distributors, contractors, developers, and investors worldwide.

At Luxes Invest, we combine local expertise with an international perspective to deliver sustainable growth, long-term partnerships, and value-driven investment opportunities. Our mission is to bridge European markets with innovative Turkish industries while providing investors and businesses with reliable, transparent, and results-oriented consulting services.

- ✓ Real Estate Investment Consultancy
- ✓ Construction & Project Consultancy
- ✓ International Investment Advisory
- ✓ Property Acquisition Support
- ✓ Project Evaluation and Feasibility Analysis
- ✓ Strategic Partnerships and B2B Networking
- ✓ International Marketing and Brand Representation of Vindosa, BigWay, Vemsa, Saccio, and Global Future
- ✓ Export and Commercial Consulting
- ✓ Cross-Border Business Expansion
